DIARY NOTES

25X1A

DD/S [REDACTED]

17 July 1959

1. As a result of a member of the Office of Scientific Intelligence making an official long-distance telephone call overseas, the Director has requested that our Regulations be amended so as to require the approval of the Deputy Director concerned prior to such calls being made.

25X1A9a

2. I met with Dick Bissell to discuss the DD/P space situation in the new building. He has now agreed to inform [REDACTED] of the approximate locations of the two hundred slots which he expects to eliminate in the DD/P Area and to instruct him to attempt to plan the space in the new building so as to accommodate all DD/P units, including the Development Projects Division. I have passed this on to [REDACTED] and Jim Garrison.

25X1A9a

3. I also briefed Dick on our meeting with Mr. Stans on Wednesday, and he is, of course, most unhappy about the situation.

4. I called on Rear Admiral K. M. McManes, Assistant Vice Chief of Naval Operations, and advised him that there was a possibility that as a result of a study which we were now making we might have [REDACTED] in excess of our needs. I agreed to get in touch with him when we had finished our study within the next thirty to sixty days.
